

PS SERIES

RECHARGEABLE SEALED LEAD ACID BATTERIES

Fire & Security

General Purpose

Emergency Lighting

Medical

Power Sonic's PS series of sealed lead acid batteries have been designed with AGM (Absorbent Glass Mat) technology to ensure superior performance and reliability.

They have been engineered specifically for use in general purpose float and light cyclic applications including security and fire protection systems, emergency lighting, UPS, toys and medical devices.

TRUSTED BATTERY SOLUTIONS

power-sonic.com

PS SERIES

Rechargeable Sealed Lead Acid Batteries

FEATURES

- General purpose VRLA battery
- Absorbent Glass Mat (AGM) technology for superior performance
- Power and volume ratio yielding unrivalled energy density
- VdS approved models
- Valve regulated, maintenance free spill proof construction
- Rugged impact resistant ABS case and cover flame retardant to UL94:HB and UL94:V0
- Low discharge rate for long shelf life

A number of our PS range of batteries are VdS approved. VdS is one of the world's leading inspection and certification companies in the fire protection and security industry. They set international standards with the publication of a comprehensive set of rules and guidelines for fire protection and safety equipment. VdS is one of the only testing institutes certifying sealed lead acid batteries, our VdS approved batteries are indispensable for the reliability of many security and fire systems. The VdS quality seal certifies that our batteries are of optimum quality for use in fire, security and life safety applications.
